Guía de Instalación

# Instalación

## INSTALACIÓN

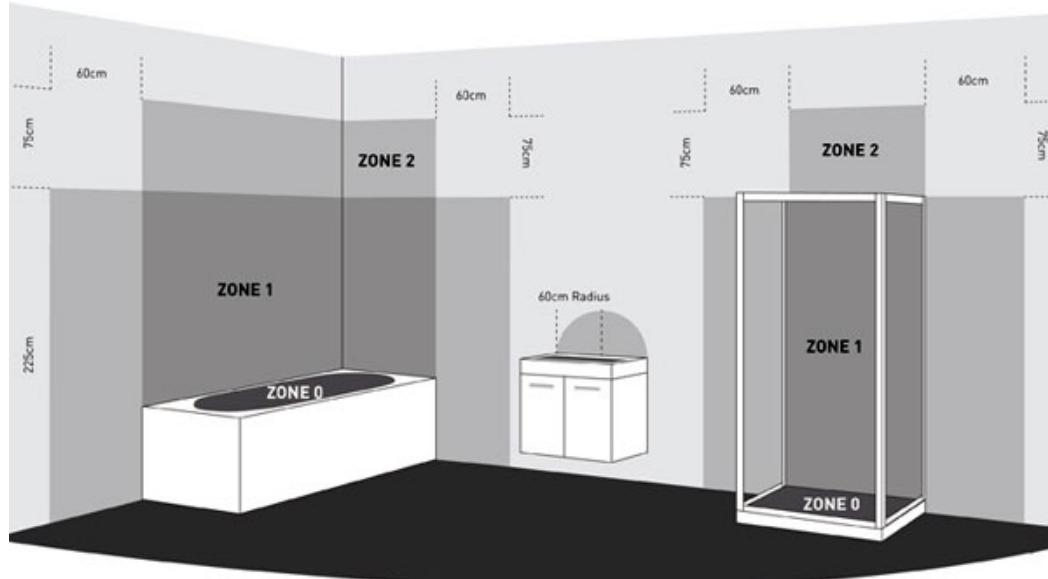

Recomendamos que todo el trabajo eléctrico sea realizado por un electricista profesional. Se recomienda que este producto sea instalado por dos personas. Asegúrese de que la alimentación a la red eléctrica de su hogar a la que desea conectar el espejo esté desconectada. Conecte el suministro eléctrico principal a la caja de registro que le proporciona de acuerdo con el diagrama de cableado a continuación.

## INFORMACIÓN ELÉCTRICA

Todas las instalaciones deben cumplir con las normativas que se basan en un concepto de zonas y deben seguirse para garantizar la instalación segura de los electrodomésticos dentro de la zona del baño.

Estas regulaciones se aplican solo a las instalaciones domésticas. Las instalaciones deben realizarse de acuerdo con las normas de instalaciones eléctricas IET vigentes y reglamentos de construcción.

Este producto tiene una clasificación IP44 y es adecuado para su instalación en LA ZONA 2 y Zona Exterior.
